

Technical drawing of a vertical gas burner assembly. The drawing shows a side view of the burner with a gas inlet pipe on the right and a vertical burner body. The burner body is composed of several stacked sections. The overall height of the assembly is 320. The burner body has a diameter of 60. The base of the burner is mounted on a plate with four mounting holes, labeled LK Ø170 - 4x Ø9. The base plate has a diameter of 140. The burner body is 19 units high. The base plate is 200 units wide. The distance from the base of the burner body to the top of the burner is 61. The distance from the base of the burner body to the center of the mounting holes is 50. The distance from the base of the burner body to the bottom of the mounting holes is 45.
